MISCELLANEOUS SERVICE ARRANGEMENTS

A. General - Custom Calling Service

A.0.1 Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

A.1 Feature Description

A.1.1 Call Forwarding

This service allows calls to be redirected to another telephone number, selectable and changeable by the subscriber. A courtesy call is required for each activation which is completed by dialing a special access code, entering the desired number to forward the calls to and connecting with the party of the desired number to obtain consent. If the party of the desired number does not answer or if the line is busy, the process must be repeated immediately (within 2 minutes) to ensure the number dialed is correct, then the subscriber will receive a confirmation tone. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a subscriber must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

A.1.2 Call Waiting/Cancel Call Waiting

This service alerts the subscriber currently on the phone that another local or long distance caller is attempting to get through the line. The subscriber will receive a tone signal to indicate there is another incoming call and the caller will receive the usual ringing tone. To place the current caller on hold and answer the incoming call, the subscriber need only depress the switchhook once. The subscriber can then toggle between both parties by depressing the switchhook. If the subscriber hangs up when a party is still on hold, the subscriber's line will automatically ring back. When the subscriber picks-up the phone, he/she will be connected to the party that was on hold.

MISCELLANEOUS SERVICE ARRANGEMENTS

A.1 Feature Description (Continued)

A.1.2 Call Waiting/Cancel Call Waiting (Continued)

(T)

Cancel Call Waiting allows a Call Waiting subscriber to deactivate the Call Waiting service. The Call Waiting subscriber will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal instead of a ring. Call Waiting will remain disabled for the rest of the call, but will be automatically restored to the line when the subscriber hangs up. To activate this service, the subscriber dials the Cancel Call Waiting code, receives a dial tone again, and then places the call normally.

A.1.3 Speed Call 8

(T)

This service allows the subscriber to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

A.1.4 Speed Call 30

(T)

This service allows the subscriber to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

A.1.5 3-Way Calling

(T)

This service allows a subscriber to add a third party to an existing phone conversation. To add a third party, the subscriber depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way talking connection. All calls made with 3-Way Calling are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use 3-Way Calling will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

(N)

(N)

A.1.6 Do-Not-Disturb

(T)

This feature allows a station user to prevent incoming calls reaching their station. Customers who call the phone number will reach a recording which states the number is not accepting calls at this time and to try again later.

A.1.7 Warm Line

(T)

Provides an automatic dialing between the customer's station that goes off hook after a preset amount of time and a predetermined phone number designated by the customer.

A.1.8 Call Reminder

This service allows a customer to program a time at which a reminder call is desired. At the programmed time, the customer will receive a call placed by the Central Office Equipment. When the call is answered, the customer will hear a tone or a Company recorded announcement.

(T)
|
(T)

A.1.9 Call Hold

This service allows a subscriber to place a current caller on hold, which frees the line so the subscriber can answer another incoming call. To activate Call Hold, the subscriber depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per station line can be held at a time. The held call cannot be added to the original call.

(T)

A.1.10 Personal Ringing

This service allows the subscriber to have up to four separate telephone numbers on a single line. The second, third and fourth number will each have their own distinctive ringing pattern to identify the incoming calls. If a subscriber of this service also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a subscriber to this service also subscribes to Call Forward, they have the option to forward the main directory number or all four telephone numbers.

(T)

Personal Ringing service subscribers will be entitled to one listing with each Personal Ringing service number. Listings for Personal Ring service are subject to regulations specified in other sections of this Tariff for directory listings. Other listings will also be provided under the terms and conditions described in other sections of this Tariff.

All telephone numbers associated with a line equipped with Personal Ringing service must originate from the same central office switching machine.

(T)
|
(T)

A.1.12 Long Distance Call Waiting

This service alerts a Call Waiting subscriber currently on a call that a long distance caller is attempting to get through the line. The subscriber receives a special tone signal, which is different than the Call Waiting tone signal for a local call, to indicate there is incoming long distance call. The long distance caller will receive the usual ringing tone. To place the current caller on hold and answer the incoming call, the subscriber need only depress the switchhook once. The subscriber can then toggle between both parties by depressing the switchhook. If the subscriber hangs up when a party is still on hold, the subscriber's line will automatically ring back and the subscriber will be connected to the party that was on hold after the subscriber picks-up the phone. Long Distance Call Waiting is an add-on service which works only if a customer is subscribed to Call Waiting

(T)

A.1.13 Home Intercom Services

(T)

1) Home Intercom - Basic

This service allows a subscriber to redial his/her own directory number in order to talk to another party at a different extension. To activate this service, the subscriber redials his/her own directory number and hangs-up. The phone will ring back after a short interval and then after both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

MISCELLANEOUS SERVICE ARRANGEMENTS

A.1 Feature Description (Continued)

A.1.13 Home Intercom Services (Continued)

(T)

2) Home Intercom - Enhanced

This service allows single-party residential subscribers to establish a talking path between two or more of their extensions. To activate this service, the subscriber dials one of the access code numbers predetermined by the telephone company, receives an announcement, and then hangs up the phone. Their phone will ring back in one of the distinctive patterns, depending on the access code dialed. Also included in this package is dialable hold, where one extension can transfer an outside call to another extension.

A.1.14 Hotline

(T)

This service allows a call to be automatically placed to a pre-assigned number determined by the customer as soon as the subscriber's phone goes off-hook. The telephone company will program the pre-assigned number Line for the customer.

A.1.15 Call Transfer

(N)

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

(N)

A.1.16 Toll Restriction

(T)(M)

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

A.1.17 Toll Restriction with PIN override

(N)

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

A.1.18 Call Forward-Busy (Fixed)

This service automatically redirects incoming calls to a predesignated telephone number or voice mail service when the customer's line is busy. The customer activates the service by contacting the telephone company and designating the number to which all calls will be forwarded when the line is busy. The telephone company then establishes the fixed forward-to telephone number within the switch. To cancel the service or change the forward-to telephone number, the customer must contact the telephone company. All call forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

A.1.19 Call Forwarding-Busy (Variable)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

A.1.20 Call Forward-No Answer (Fixed)

This service automatically redirects incoming calls to another telephone number or voice mail service when the customer's telephone is not answered in a pre-determined number of rings. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer activates the service by contacting the telephone company and designating the number to which all calls will be forwarded when the telephone is not answered within an established period of time. The telephone company then establishes the fixed forward-to telephone number within the switch. To cancel the service or change the forward-to telephone number, the customer must contact the telephone company. B. JOINT USER SERVICE

1. General

- a. Joint User Service is an arrangement whereby a person or firm whose telephone needs are not such as to justify the provision of separate telephone service, is permitted to use the service of an existing customer. To facilitate this use, one listing in the alphabetical service of the directory is provided for each joint user. This service is not designed to meet situations where a customer is engaged in furnishing service of a secretarial nature or is in the business of renting office space to transient or permanent tenants and desires to furnish telephone service to his/her leases.

2. Conditions

- a. The joint user must be located in the same office or suites of offices or in offices immediately adjacent to the connected with the office of the subscriber and must be so located as to be accessible to the telephone to be used. Joint use of hotel service is not furnished for persons or firms occupying stores, shops or offices in transient or family hotels.

C. DIRECTORY LISTING

1. General

- a. Directory listing regulations apply to listings in the regular alphabetical list of names of customers.

A listing in the alphabetical section of the directory is provided to a customer without charge. Listings are intended primarily for the purpose of identification and are limited to information which is essential to such identification. Directories are furnished only as an aid to the use of the telephone service facilities, and the Telephone Company reserves the right to refuse to insert any listing in its directories which is not in accordance with directory service. Directory listings are not provided in connection with public telephone service.

C. DIRECTORY LISTING (Continued)

1. General (Continued)

- b. The Company reserves the right to limit the length of any listing to one line in the directory by the use of abbreviations when in its judgement the clearness of the listing and the identification of the subscriber is not impaired thereby.
- c. Except as hereinafter provided, only one listing is furnished without charge for each main service, joint user service, PBX system or Centrex system; where a number of main services are provided on a rotary basis they are considered as one service. If additional listings are required to properly identify the subscriber, such additional listings may be provided without charge to the extent that the number of listing allowed does not exceed the number of access lines or key system/PBX trunks associated with that service directory listings showing the appropriate station number may be indented under the main listing or additional listing at the charge for additional listings. Such listings may be specific department, location or titles of key personnel.
- d. The Telephone Company has the right to refuse to list in the alphabetical section of the telephone directory any listing which does not constitute a legally authorized and adopted name and/or any name which is likely to mislead or deceive the public as to the identity of the customer, or which is inserted for advertising purpose, or which is more elaborate than is reasonably necessary to identify the customer. The Telephone Company also reserves the right, upon proper showing, to withdraw any listing which is found to violate the above rules.
- e. Additional listings on rotary numbers usually bear the directory number of the first line of the rotary group, but, at the subscriber's request, they may bear any one of the rotary numbers.
- f. Street numbers, followed by the names of streets, will be used in identifying the location of the subscriber except when in the judgement of the Company names of buildings, apartment houses or communities will be used only where the street number is not available. The floor, room or suite number of buildings or apartment houses, or other such designation is not permitted.

C. DIRECTORY LISTING (Continued)

1. General (Continued)

- g. When in the judgement of the Company the use of reference or other listings in excess of the number of listings permitted without extra charge as previously outlined, are needed for better identification of the subscriber or governmental offices to facilitate the Company operations, such listings may be provided without charge.
- h. Whenever any question arises to the right of a subscriber (1) to list the name of a business which he claims he is authorized to represent; or (2) to use a listing which includes the trade name of another, the Company is privileged to require the subscriber to secure from the owner of such name, written authority to use it, addressed to the company for the acceptance for insertion or for the continuance of such listings; and is privileged to refuse to accept or delete such lists where (1) such written authority is not so furnished or (2) such authority is withdrawn by such owner in writing to the company.
- i. The Telephone Company is not liable for damages arising from errors or omissions from its directory, except in cases where a specified charge has been made for a listing and then the liability of the Telephone Company shall not exceed the amount of such charges.

2. Business Listings

- a. A listing must be the name of the individual, partnership, corporation, firm, association, institution, etc., to whom services are furnished; or the name of a member, officer, employee, or representative thereof. Listings other than those specified herein are available only in connection with joint user service.
- b. A caption listing, for example, the listing of a hotel under which are indented the telephone number for room reservations, restaurants, convention hall and catering is provided at the charge listed in this section. The caption must be an essential part of the listing which follows.

C. DIRECTORY LISTING (Continued)

3. Residence Listings

The primary residence listing shall include the name of the customer subscribing to the service and may include, at the request of the customer, the name of one other person residing at the same address, and sharing the same telephone number with the customer or, at the customer's request, another first name by which the customer is known.

4. Additional Listing

- a. Additional listings for which a charge is made are designated extra listings and are furnished subject to directory listings regulations. A line of information in the telephone directory is subject to the same charges for each additional line per month as an extra listing.
- b. Business additional listing may be the names of partners or members of the firm if the subscriber or joint user is a partner of the firm; the names of officers of the corporation, if the subscriber or joint user is a corporation; and for any business establishment, the names of associates or employees of the subscriber or joint user. No other class of listing, such as service, agency commodity, etc., will be accepted.
- c. Residence additional listings may be the names of members of the subscriber's immediate family.
- d. In connection with semi-public telephone service, additional listings are allowed at regular additional listing rates in the name of permanent guests or tenants at that location.
- e. Ordinarily, all additional listings must be of the same address and telephone number as the primary listing, except as provided below for alternate listings. However, when in the opinion of the company it appears necessary as an aid to the use of the directory and provided satisfactory service can be furnished, a listing may be permitted under the address of a PBX, installed on the premises of the subscriber, but an address different from that of the switchboard, or main station, using the telephone number of the primary listing.

C. DIRECTORY LISTING (Continued)

4. Additional Listing (Continued)

- f. Listing charges date from the day the information records are posted. At the option of the customer, information records are posted at the time the order is completed or at the time the listing appears in the directory. Charges for extra listings are discontinued upon termination of the main contract for services.

5. Duplicate and Cross Reference Listings

Duplicate (i.e. listings of nicknames, abbreviated names which are commonly spelled in more than one way, and rearrangements of names) are permitted when, in the opinion of the Company, they are necessary for the proper identification of a subscriber, and are not decided to secure a preferential position in the directory or for advertising purposes.

6. Alternate Call Number Listings

The alternate number may be that of a service not under contract with the subscriber in connection with whose name it appears. In such cases, the consent of the subscriber to the alternately listed service must be obtained before the alternate listing is furnished.

7. Foreign Exchange Listing

Foreign Exchange Listings (i.e. listings of subscribers located in an exchange other than in which the listed service is furnished) are permitted.

8. Temporary Listing

Residence subscribers who lease their premises for a period of less than one year and request the Company to render service to their tenant without change in contract, may arrange for listing of such tenant provided that the subscriber and the tenant do not occupy the premises at the same time.

9. Dual Name Listing

- a. Dual Name Listing may be provided for customer subscribing for residence service who share the same surname and resides at the same address, and for a person known by two first names.
- b. Dual Name Listings may be provided as the primary listing at no additional charge for the addition of the second name to the listing.

MISCELLANEOUS SERVICE ARRANGEMENTS

A. GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

B. SERVICE DESCRIPTION

1. **ANONYMOUS CALL REJECTION [Feature #003429]**

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

2. **CALL REJECTION [Feature #003399]**

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers which he/she does not wish to receive calls. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

3. **CALL RETURN [Feature #003319]**

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

4. **PREFERRED CALL FORWARDING [Feature #003389]**

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls

forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. PRIORITY RINGING [Feature #003359]

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

6. REPEAT DIALING [Feature #003309]

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

7. SPECIAL CALL ACCEPTANCE [Feature #003379]

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

8. CALLER ID

Caller ID - Basic (Number only) and Caller ID - Deluxe (Name and Number) are the available services. Caller ID - Basic and Caller ID - Deluxe include Anonymous Call Rejection (ACR) at no charge.

a) Caller ID - Basic [Number is feature #003329]

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

8. CALLER ID *(continued)*

a) Caller ID - Basic *(continued)*

The customer originating the call may prevent the display of their number. If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. At this time, blocking may or may not be provided on calls originating from public, semi-public or other services used by the general public. This depends on feature availability.

b) Caller ID - Deluxe [Name is feature #003419]

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission.

A customer may prevent the display of their name and number by using blocking services. If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery. The Company will forward all telephone numbers where technically feasible.

At this time, name and number blocking may not be provided on all calls originating from public, semi-public or other services used by the general public. This depends on feature availability.

9. CALLER ID BLOCKING [Feature #003339]

Caller ID Blocking allows the subscriber to prevent the delivery of their number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

Caller ID Blocking - Per Call will block the delivery of the subscriber's number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing *67 (1167 from a rotary phone) prior to placing the call, Caller ID Blocking - per call is provided to all customers at no charge.

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

- c. Caller ID - Basic and Caller ID - Deluxe cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the data message.
- d. Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number of the PBX or Key System will be displayed.
- e. Caller ID - Basic and Caller ID - Deluxe cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
- f. The calling number, or name and number will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
- g. The calling party has activated blocking.
- h. Caller ID Services do not display a directory number for operator assisted calls, calls marked private by the originator or calls originating from coin and party line stations.
- i. If a customer dials a "1-800" or other Automatic Number Identification service number, the telephone number that they are calling from will be revealed to the called party, even if the customer has per line blocking or has activated per call blocking.
- j. Caller ID is available on all long distance calls where technically feasible.
- k. All calling numbers will be displayed to E911, even if the customer has per-line blocking or has activated per-call blocking.
- l. All calling numbers, or name and numbers will be passed, even for customers who do not subscribe to Caller ID.
- m. Per Call Blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per Call blocking.)

2. Limitations for Advanced Calling Services:

- a. Where the calling party's telephone number, or name and number can be forwarded from the central office originating the call to the terminating central office serving the called party;
- b. When both the originating customer and the call terminating customer are served from the same central office;

BUSINESS RELOCATION FORWARDING

(N)

A. General

1. Business Relocation Forwarding is a service whereby a call placed from a station (the originating station) to a Business Relocation Forwarding telephone number in one exchange (the call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the Business Relocation Forwarding customer (the terminating station). This service is offered subject to the availability of suitable facilities. Where the call forwarding location is in a multi-office exchange, the Company will determine the serving central office.
2. Business Relocation Forwarding is provided on the condition that the customer subscribe to sufficient Business Relocation Forwarding features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company.
3. Business Relocation Forwarding is available to BUSINESS customers only.

TOLL RESTRICTION SERVICE

A. Description

1. Toll Restriction

This service restricts the completion of calls to 0+ and 1+ area codes. When a subscriber tries to dial a number with the restricted area code, either a dial tone or a telephone company recorded announcement is received.

2. Toll Restriction Override

This service allows a subscriber to override the restriction (call blocking) on calls to 0+ and 1+ area codes on a per call basis by using an authorization code. To activate the override, the subscriber dials an activation code and a Personal Identification Number (PIN), waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or company recorded announcement will be heard by the caller.

B. Regulations

1. Toll Restriction Override Service will be offered where facilities and conditions permit.
2. Toll Restriction Override Service is available on single party residence and business lines.
3. Toll Restriction Override Service may be canceled at any time without charge.
4. Customers subscribing to Toll Restriction Override Service may be required to sign an agreement indemnifying the Company for any liability resulting from such toll restriction.
5. In some instances, Toll Restriction Service will necessitate a change in the customer's existing telephone number.
6. The Company makes no guarantee and assumes no liability for the accuracy to Toll Restriction Service. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising from the restriction of telephone calls made from the customer's access line.

C. Rates and Charges

Toll Restriction Service rates and charges are in addition to any applicable rates and charges already provided for in other sections of this tariff.

3. Conditions (Continued)

- b. The service includes central office switching equipment for in-dialing from the exchange and toll network directly to stations associated with customer premises equipment.
- c. The service must be provided on a minimum of 10 lines in a trunk group arranged for inward service.
- d. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
- e. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
- f. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
- g. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
- h. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
- i. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
- j. DID numbers will be sold in conjunction with DID service only.
- k. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

O. DEDICATED DS1 SERVICE

(N)

1. General

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

2. Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

3. Regulations

a. Dedicated DS1 Service is available for a minimum service period of one month.

b. Dedicated DS1 Service is available on a month-to month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.

c. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.

d. For channelization of Dedicated DS1 Service, please see Digital Transport Service in Section IV.

- e. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
- f. The rates listed in Paragraph 4., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
- g. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.
- h. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

P. DIGITAL TRANSPORT SERVICE

(N)

1. General

Digital Transport Service (DTS) provides customers with a cost effective option to deliver voice grade service from the serving Central Office to a customer's premises. DTS is only provided with a DS1 Channel (1.544 Mbps) as provisioned in the Local Private Line tariff. DTS supports Direct Inward Dialing (DID) Service, Dedicated 800 Service, and Local Exchange Business Trunks. The primary users of this service include Internet Service Providers and owners of PBX Systems.

2. Definitions

DS0 - One voice grade circuit. This circuit generally has a 64 Kbps transmission speed.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

3. Regulations

- a. DTS is subject to the availability of central office equipment and appropriate outside plant facilities.
- b. The rate structure for DTS requires charges for Trunk Terminations, DS1 facility, Digital Interface Termination and Subscriber Line Charges (SLC).
- c. The Digital Interface Termination rate is available on a month to month basis or under variable rate periods with rates based on lengths of 12 months, 36 months and 60 months.

PUBLIC SERVICE COMMISSION

SERVICE CONNECTION CHARGES

A. NON-RECURRING CHARGES

1. General

- a. The term service charges as specified herein, and in other sections of this tariff is defined as a non-recurring charge or charges applying to the ordering, installing, moving, changing, rearranging, and furnishing of telephone service.
- b. Charges in this section apply to basic single line business or residential service. Where equipment listed in other sections of this tariff is installed in addition to, or in place of, basic single line instruments, installation charges may apply either in addition to, or in place of charges specified herein.

2. Payment of Service Charges

- a. Payment of residential service charges for the initial establishment of service, may be extended equally over a period of two months. However, at the company's option, service charges may be required to be paid at the time of application.
- b. The charges specified herein do not contemplate work being performed by company employees at a time when overtime wages apply due to the request of the customer. If the customer requests overtime labor be performed or interrupts work once begun, a charge in addition to the specified charges will be made based on the additional costs involved.

3. Definition of Terms

- a. Changes: A change is a substitution of a different type of telephone equipment, or a rearrangement of equipment which does not involve a change in location of the instrument.
- b. Minimum Service Periods: That service is installed and remains in use for one calendar month.
- c. Inside Move: A transfer of telephone service or equipment from one location to another within the same building occupied by the same subscriber, where there is no interruption of the service other than is incident to the work involved.

4. Applications

a. Service Order Charge

1. The service order activity is classified as either Initial, Subsequent or Record Only Charge. The charges are applicable for work done in receiving, recording and processing information necessary to execute each customer request for initial connection of service per address (Initial Order Charge applies), to each order for a move, change, or addition to existing service on the same premises (Subsequent Order Charge applies), or to each requested change which only involved changing the Company's records (Record Only Charge applies).
2. A single service order will be issued for all work or service ordered to be performed or provided at the same time on the same premise. Service ordering charges apply separately where business and residence service are located on the same premises.
3. One Service Order Charge is applicable for each mileage circuit between points on separate premises. Multiple channels between the same points, or multipoints channels, or additional stations on mileage channels, ordered at the same time are included under the same Service Order Charge.
4. Unless otherwise specified, the appropriate Service Order Charge is applicable for a customer order for service, and is in addition to any Initial Non-Recurring Charge which may be applicable for the service furnished.
5. The Record Only Charge is applicable, but not limited to the following customer requests which do not involve OSP line connection, central office work or premises work.
 - a) Changes or additions involving Directory Listings or Joint User Service.
 - b) Changes in the name, responsibility or billing address.

CONSTRUCTION CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

A. CONSTRUCTION CHARGES

1. General

- a. Special charges in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates when, because of the occasional nature of the service or an unusual investment or expense, the revenue does not reasonably compensate the Company, as for example:

- 1) The facilities are provided in remote or undeveloped areas outside the base rate area.
- 2) The facilities are provided on a temporary basis.
- 3) Conditions require the provision of special equipment or unusual methods of plant construction, installation or maintenance.
- 4) The customer's location requires the use of costly right-of-way.

- b. Title to all construction, provided wholly or partly at a customer's expense, is vested in the Company.

- c. The word "cost", when used in this Section, means the in-plant cost consisting of labor, engineering, materials, supervision, and other overhead expenses associated with the construction. Estimated cost may be used; however, where the customer requests, actual cost will be used where practicable.

- d. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this Section, the attachment rental charges to the Company may be assessed to the applicant(s) in whole or in part as the particular circumstances may warrant.

- e. Except as otherwise provided herein, the regulations in this tariff contemplate that the type of construction required to provide the quantity and class of service involved will be determined by the Commission. The applicant may be required to pay the additional costs involved if a different type of construction than that proposed by the Company is desired.

CONSTRUCTION CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

A. CONSTRUCTION CHARGES (Continued)

1. General (Continued)

- f. The customer is required to pay construction charges made by another Company providing facilities connecting with the facilities of the Telephone Company.
- g. Construction charges will not apply to the customer's aerial or buried drop which extends from the last pole to the building in which the telephone is located.
- h. When an applicant is so located that it is necessary to use private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the costs incurred in securing, clearing, and retaining such right-of-way.
- i. No construction charge is applicable for the provision of construction on public highways or other easements within the base rate area, or beyond the base rate area when such construction is to be used in serving customers with the grade and class of telephone service normally offered in a given area.

2. Construction for Rural Service

Under normal conditions, or until the Company has met its requirements under Rural Electrification Administration (REA), and Area Cover Design (ACD), the Company will extend its lines to reach applicants within the exchange service area. After the agreement has been met, the Company, without charge, will extend its lines to reach applicants within the exchange service area, subject to the following conditions:

- a. Extension of rural line facilities outside the base rate area will be provided without construction charges under the following conditions:
 - 1) Under normal conditions, the Telephone Company will extend its rural lines one-half mile to reach a rural customer within the exchange area.
 - 2) The Telephone Company will provide main line extensions for the provision of rural service to a group of applicants if the number of applicants in the group for permanent service on an annual basis averages one for each half mile or less of plant extension, by shortest public highway measurement.

2. Construction for Rural Service (Continued)

- b. In all other cases, construction or extension of rural lines outside the base rate area will be made on the basis of construction charges as follows:
 - 1) That portion of the construction expense to be borne by the telephone company shall not be more than seven times the annual exchange revenue of the applicant or group of applicants.
 - 2) The balance of such construction expense may be assessed by the Company to such applicant or group of applicants.
- c. The construction charge assessed on applicant or group of applicants for facilities shall be paid in advance.
- d. Payments for line construction are not refundable and no credit will be allowed for future installations on line extensions constructed under these regulations.
- e. Line extensions to provide service on a basis other than as covered above, required the payment of construction charges as determined for the conditions.

3. Private Right-of-Way

When the applicant is so located that it is necessary to secure private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the cost incurred in securing, clearing and retaining such right-of-way.

4. Poles and Wire on Public Highways and Private Property

- a. Except as provided under "Temporary Service", no construction charge is made for the provision of new pole lines or wire on public highways within the Base Rate Area.
- b. Except as provided under "Temporary Service", where the applicant is located outside the Base Rate Area and the construction outside the Base Rate Area is required to provide facilities to service one or more applicants, the applicant or applicants may be required to bear the cost of such construction.

CONSTRUCTION CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

A. CONSTRUCTION CHARGES (Continued)

4. Poles and Wire on Public Highways and Private Property (Continued)

- c. Except as provided under "Temporary Service", neither station installations, including drop wire, protector, inside wiring, telephone sets or any plant within the Base Rate Area shall be considered as construction costs.
- d. Poles on private property to be used as a part of the standard distributing plan serving subscribers in general are furnished, maintained and owned by the Company, subject to such construction charges as may be applicable.

B. TEMPORARY SERVICE

- 1. When construction is required for temporary service and there is, in the opinion of the company, no immediate prospect of re-using the plant involved, the customer may be required to pay all or a portion of the cost of such construction, including the cost of removing the plant provided. The salvage value of any plant removed shall be deducted from the total cost to be paid by the subscriber.
- 2. Under "unusual" conditions, station installations, including drop wire, protector, inside wiring, telephone sets, and any common control equipment can be included, all or part, in the cost of construction. Inclusion of items mentioned here in any Construction costs would be reviewed on an individual basis. 1. Installation of Interior Wire (Continued)

- c. The customer will be required to provide suitable access to work space for installation and maintenance purposes, and to remove and replace any ceiling, walls, floor, etc., as may be required. The company shall reserve the right to refuse to install or maintain wiring in a location where safety of workmen or continuity of service might in the opinion of the company be questionable.

2. Limitations

- a. Preinstallation of inside wire is limited to building under construction.
- b. Should the company provide pre-installed inside wire, and its location is not suitable to the customer when construction is completed, the company will complete its installation by the method desired by the customer at normal service charge rates.
- c. If construction of the building has progressed to such a point as to make preinstallation of inside wire impractical, the company is under no obligation to provide such wiring.
- d. It is solely the responsibility of the customer to notify the company of their desire for preinstallation of inside wire.

3. Underground Service Entrances

When underground service connections are desired by the customer as initial installation in places where aerial drop wires would ordinarily be used to reach the customer's premises, or when aerial facilities are used to provide service or channels to a customer and subsequently the customer desires that such facilities be placed underground, the following regulations apply:

- a. Underground service entrances may be provided at the customer request as special construction in connection with either existing or new services in lieu of the usual aerial drop wire.

E. MOVES OR CHANGES OF EXISTING CONSTRUCTION

When the Company shall move or change existing construction or equipment for which no specific charge is quoted in this tariff, the person at whose request the move or change is made may be required to bear the cost of such move or change.

F. CONSTRUCTION IN RESIDENTIAL DEVELOPMENT

1. Terms

- a. Single family development is five or more adjoining lots in a recorded plan for the construction of single family residences including mobile homes intended for year round occupancy.
- b. Duplex development is three or more lots in a recorded plan for the construction of dual family residence intended for year round occupancy.
- c. Multi-family development is one or more lots in a recorded plan with three or more units planned for each lot, and intended for year round occupancy. In this category would fall apartment complexes, apartment buildings and condominiums.
- d. Speculative development where a tract of land is being developed, where distribution facilities of the Company have to be extended in conjunction with the development of the tract prior to its completion either at the convenience of the developer or the Company, and where dwellings are being constructed without a sales contract or signed lease. CONSTRUCTION CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

F. CONSTRUCTION IN RESIDENTIAL DEVELOPMENT (Continued)

1. Terms (Continued)

- e. Non-speculative development where a tract of land is being developed where facilities of the Company exist where the development of the tract permits distribution extension as the customer requires service, and necessary cable facilities can be provided at the Company's convenience. The term non-speculative is intended to mean that investment to plant can be made with firm guarantees of a timely return on investments.

2. Condition

Where requests are made of the Company by the developer of a residential development, the Company will require:

- a. At his own expense, provide the Company with a detailed subdivision plan, showing detailed surveys of each lot in the plan, street location, and a key map showing all other specific locations.
- b. At his own expense, provide the Company with easement satisfactory to the Company for occupancy and maintenance of distribution and related facilities, except service lines in public places which the Company has the right to occupy.
- c. At his own expense, the developer will clear easements for the aforementioned facilities clear of tree stumps and other obstructions.
- d. Should the developer make changes in the plot plan after the Company has completed engineering or begun construction, which creates for the Company additional expense, the developer shall bear the cost of these additional expenses.
- e. Before the construction of Company facilities, the developer is responsible for identifying all underground facilities of others. Should in the course of construction of its facilities, the Company damages the facilities of others that were not identified by the developer, the developer will bear all expense in the repair of said facilities.

CONSTRUCTION CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

F. CONSTRUCTION IN RESIDENTIAL DEVELOPMENT (Continued)

2. Condition (Continued)

- f. Following completion of construction of Company facilities, and prior to completion of the development, the developer shall bear the cost of damage to the Company's facilities caused by the developer and others. This includes all distribution and service lines. Costs here are defined as labor, material and overhead expenses applicable at the time of damage. This liability is only to those areas where lots or buildings have not been sold or occupied by tenants and is still under construction, or where development of lots have been completed and sold to a contractor operating independently of the developer.

3. Conditions - Speculative Development

- a. If the development in the sole opinion of the Company is speculative, the following conditions apply in addition to those specified in paragraph F.2.
- b. After the developer has supplied the Company with a subdivision plan, the company will prepare an estimate of costs involved in supplying distribution cable and service wires.
- c. The developer will be required to post an amount (non-interest bearing) equal to the construction estimate.
- d. The Company will then begin work on detailed engineering and construction of facilities required by the developer.
- e. Once construction has been completed and the actual cost of construction has been determined, the developer will be refunded any difference should the cost be less than the amount originally posted, or to pay the balance of the costs in excess of the amount originally paid.
- f. These funds will then be considered payment for construction of facilities. These facilities shall be owned and maintained by the Company.
- g. As each dwelling unit is occupied and its occupant accepts service from the Company, the Company will refund the developer or his designee a prorated share of the construction cost. The proration will be determined by dividing the total number of lots and dwelling units in the total development, by the total cost of construction.

FOREIGN EXCHANGE SERVICE

1. General

Foreign exchange service is exchange service furnished to a customer from an exchange other than one from which the customer would normally be served.

- a. Foreign exchange service is not in accord with the general plan of furnishing telephone service and such service is furnished only under conditions where warranted by the circumstances involved and provided facilities are available.
- b. The service is furnished in connection with individual access line service or key system/private branch exchange service only.
- c. The service is furnished subject to the same conditions and restrictions as to the use of the service by others than the customer and his/her representatives as applies in connection with other classes of basic local exchange service.
- d. All negotiations for the establishment of foreign exchange service will be initiated by the prospective customer with the exchange from which he/she would normally receive service, and the customer will be required to contract for local service in this exchange.

2. Conditions

- a. When the service involves exchange areas not served by this Company, its establishment will depend on the ability and willingness of the other company to provide and maintain the required lines and apparatus that fall within its territory.
- b. All rates and charges imposed by the other participating company will be in addition to those that apply to this Company's facilities. All such charges will, however, be paid by the Company and incorporated in the statement issued to the customer so that only one monthly bill will be used for the overall facilities.
- c. Miscellaneous services, equipment and facilities used in connection with foreign exchange service are furnished subject to the rates and regulations applying in the foreign exchange from which the customer is served. This also includes service connection, move and change charges.

FOREIGN EXCHANGE SERVICE

2. Conditions (Continued)

- d. The Company's accepted method for serving subscriber to Foreign Exchange Service, is by use of our Central Office and existing distribution plant. Connection with the foreign exchange will be facilitated by a route from central office to central office. The Company will not provide or permit provision of foreign exchange service by the extension of distribution plant across exchange boundaries.
- e. In accordance with PSC order dated February 21, 1981, Administrative Case 218, the Company will no longer provide or permit Foreign Exchange Service by extension of local exchange facilities "cross-boundary", the Company, also recognizes that it has a responsibility to continue serving existing Foreign Exchange customers served in this manner. Since rates and charges for Foreign Exchange assumes a proper serving method, those "grandfathered" Foreign Exchange customers will be charged Foreign Exchange mileage from their residence to the point of connection with the serving company. Customers who presently have Foreign Exchange service under these arrangements are "grandfathered" only at their existing premises. The Company will deny re-establishing this form of Foreign Exchange if the customer discontinues service or relocates service to another premise.
- f. All Foreign Exchange Service, whether terminating in the Companies territory or served solely within its boundaries, will require a terminating agreement for a period not to exceed six months.
- g. Installation charges for Foreign Exchange service are in addition to the service charges in Section V.

3. Rates and Charges

- a. When an applicant located in an area normally served by this Company request local exchange service privilege through an exchange owned and operated by another Company, the following charges will apply thereto:
 - 1) All charges made by the other Company for the use of its lines and facilities, plus \$110 for the first mile and \$3.15 thereafter measured by airline mile or a fraction thereof, between the territory boundary of the two exchanges to this Company's central office plus the applicable local service rate at this company's central office. The foreign termination will determine this company's local service rate as provided in this tariff.

CATV POLE ATTACHMENT SPACE

1. General

a. Application

The Rules and Regulations specified herein are in addition to those contained in all other rules and regulations, pertaining to Local Exchange Service; General Exchange Service; Message Toll Service; and other services furnished by the Company. These rules and regulations apply to rates established for furnishing CATV Pole Attachment Space to those qualified and established T.V. Cable Operators or Companies, hereinafter referred to as the CATV Customer or Customer.

2. Conditions

a. Obligation and Liability of the Telephone Company

- 1) The Company's obligation to furnish CATV pole attachment space on its poles is dependent upon the ability to secure and retain suitable facilities and rights for the construction and maintenance of the necessary pole lines.
- 2) The Company is obligated to furnish the customer space for CATV pole attachments as long as the customer observes the usual customer obligations in the payment for such services and conformance to all safety standards and other standards applicable to this service.
- 3) The Company is obligated to provide periodic inspections of the pole lines and in the event sub-standard installations are found, the Company will charge the customer for the cost of correcting them. The costs will contain labor, material and other necessary administrative costs.
- 4) When the Company requires a change in its poles or attachments for reasons unrelated to CATV operations, the customer will be given a minimum of 48 hours notice of such necessary changes. In the event the customer is unable or unwilling to meet the Company's time schedule for such changes, the Company will perform the work and charge the customer its reasonable costs for changing the CATV attachments.
- 5) The Company will be responsible for submitting an annual statement of charges to the customer for the CATV pole attachment service.

2. Conditions (Continued)

a. Obligation and Liability of the Telephone Company (Continued)

- 6) As there will be no conduit available for CATV usage, these rules and regulations apply only to CATV attachments on Company poles.

b. Obligation and Liability of the CATV Customer

- 1) The Customer will be obligated to pay the Company, at the rate/rates established herein, for the CATV pole attachment service provided, when presented the Company's annual statement.
- 2) The customer will maintain the attachments on a regular and timely schedule, and during any regular inspection by the Company, when sub-standard installations are found, will be responsible for correcting them. If the customer is unable or unwilling to make such corrections, then the Company will charge for any labor and materials necessary to make such corrections.
- 3) The customer will be responsible for notifying the Company when any new attachments are to be installed, or when any new poles are needed for attachments. No new attachments will be installed except upon the authorization of the Company.
- 4) The customer will be obligated and required to obtain the necessary insurance and/or bond, when construction of pole line and/or CATV attachments is in progress. The customer will also be required to provide workmens compensation insurance for his employees. The Company will not be responsible for any injuries to CATV employees while working on CATV attachments on Company poles.
- 5) An inventory of CATV attachments will be made by the Company during its periodic pole line inspection, and that inventory will serve as a basis for its charges to the customer. If the customer desires to take an inventory, then they will be reconciled by both parties on a reasonable agreement basis.

CONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND FACILITIES

A. RULES AND REGULATIONS

1. General

- a. Circuitry and terminal equipment connected at the customer's premises to facilities furnished by the Company for use with exchange service must comply with Part 68, Subpart B of the Federal Communication Commission Rules and Regulations.
- b. The general Regulations contained in Section II of this tariff apply to connecting of circuitry and terminal equipment connected at the customer's premises. In any instance where the tariff of the Company conflicts with the effective order of the FCC, the FCC order will have precedence.

2. Responsibility of the Customer

- a. A customer desiring to connect customer-provided terminal equipment, protective circuitry, data equipment, or communications systems, to the exchange and message toll network must make application to the Company. Such application may be made verbally prior to the desired in-service date and shall include the following:
 - 1) The type and manufacture of each item of the grandfathered equipment or the FCC registration number and ringer equivalence number of the registered terminal equipment or registered protective circuitry.
 - 2) The number of access services desired.
- b. A customer must notify the Company of his intent to disconnect customer-provided equipment or services from the Company's Access lines.
- c. Upon notification from the Company that the customer-provided equipment is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in disconnection of service until such change is completed to the satisfaction of the Company.
- d. The customer will be responsible for the payment of charges for service calls by company employees to the customer's premises where a service difficulty or trouble report results from customer-provided equipment.
